

Firewall External Services Request

In order to provide access from external sources to machines within the Department of Computer Science Network, this form must be submitted so that certain configurations can be made to the Department of Computer Science Firewall system. Any services that require access from users outside of the Department of Computer Science Network should be provided on this document. Once the form has been submitted and approved, availability of the requested service will be activated. For any questions/concerns regarding this form, please contact Michael Thompson via phone (577-8106), or email (michael@wayne.edu).

CONTACT INFORMATION:

By providing your contact information we will have the necessary information to contact the appropriate people if a situation arises. By definition, the Administrator is either the faculty/staff directly responsible for the machine or oversees work done on the machine by his/her appointed Technician. By signing your name you are accepting responsibility for the designated workstation/server and the specific service being requested for use on said workstation/server:

Administrative Contact (Faculty/Staff):

Name

Phone

Email

Signature*

Technical Contact (If different from Admin):

Name

Phone

Email

Signature*

Service Information:

Hostname

Service Requested

Reason for service

In order to use this option you must have access to the internet and a functional email client or a functional browser with a browser accessible email account.

*Acknowledgment: By typing your name in the above Signature fields you agree that the electronic signature is valid as your signature.
