

Firewall External Services Request

In order to provide access from external sources to machines within the College of Engineering network, this form must be submitted so that certain configurations can be made to the Engineering firewall system. Any services that require access from users outside of the College of Engineering network should be provided on this document. Once the form has been submitted and approved, availability of the requested service will be activated. For any questions/concerns regarding this form, please contact the Helpdesk via phone (577-3824) or email (helpdesk@eng.wayne.edu).

CONTACT INFORMATION:

By providing your contact information we will have the necessary information to contact the appropriate people if a situation arises. By definition, the Administrator is either the faculty/staff directly responsible for the machine or oversees work done on the machine by his/her appointed Technician. By signing your name you are accepting responsibility for the designated workstation/server and the specific service being requested for use on said workstation/server:

ADMINISTRATIVE CONTACT (faculty/staff):

Name: _____ Phone: _____
Email: _____ Signature: _____

TECHNICAL CONTACT (If different from Admin):

Name: _____ Phone: _____
Email: _____ Signature: _____
